We are confident that a thorough exposure of the tendencies of this organization, combined with the rapid march of events at the North, will compel our Democratic friends at least, to return to the ansient fold.

AMERICAN STOCKS ARROAD -TI e New York Tol.

The admission of American Railroad Stocks to the London Exchange, it is believed, will have a very important effect upon this market. It will make a market there which they have not heretofore enjoyed, in consequence of the difficulty of getting buyers and sellers together. The opening baying been made, the list of securities admitted to the privileges of the Exchange will undoubtedly be inceensed, and an active business grown up. Some of the recent purchases of Erie on foreign orders are believed to have been made in anticipation of extended transactions in London, under the new arrangement.

UNION AND AMERICAN OFFICE. NASHVILLE, April 8, 1855. The Comberland, after having receded slowly for a fortnight, and more, commenced rising again Thursday night, and was still rising last evening. There are now about 6 feet water on the Shouls.

After several days of cloudy and wet weather, the sun shone out clear yesterday, and we had one of the most delightful days of the season.

Trade during the week has been brisk, particularly in Dry Goods and Groceries. Our Wholesale Dry Goods houses have gonerally been actively employed, and the first auction sale by the new firm IsBr Morgan & Co. went off satisfactorily. They offered their Goods freely, and the result was heavy sales at fair prices. The trade in Produce and Provisions has been necessarily limited owing to the lightness of stocks.

COTTON,-At the date of our last weekly report, late advices from Europe by the Asia, chronicling a decline in the Liverpool market had been received, but its effect on our market had not been exhibited. On the opening of the market Monday, bowever, it was evident that buyers were disposed to recede from the highest figures paid the few days previous to the arrival of the Asia, and as holders were not pressing the sales did not go up to 100 bales, 71/c, being the highest price paid. The same feeling prevailed Tuesday, with a similar result to the operations of the day. Wednesday, owing to the presence of orders which had to be filled, and the small supply on the market, 200 bales were disposed of at 6 a7 1/c; and about the same number changed hands Thursday, one lot of 6 bales very choice selling for 7%c. Friday there was less de nand and prices did not go over 73 c. Yesterday the market was dull, and 115 bales only were sold at 6a712, the greater portion at 714

The gross recei that this port since the first of Septemher last amounts to 94,580 bales against 29,580 bales at a corresponding date last season. The stock in our warebosses amounts to about 5000 bales, of which not more midgation of the activity of the market, and holders will feel less anxiety us to prices.

TOBACCO.-There has been but little done in Tobacco since our last report, owing chiefly to the very small stock | Mess Pork held at \$15; bbl Lar 94. on band. About 50 bhds sold at prices varying from \$5 25 to \$5 15. BACON.-There has been a fair business done in Ba-

GROCERIES .- The stock on hand is still ample, and the demand active. Molasses has advanced under advices from New Orleans, to Sun23c, per gallon; Rice to 634a7c; and a small advance has also been made on Brown Sugars, which is now selling by the barrel at 52736c. per Ib., and by the hogshead at 5a614c, per lb. No other changes. CLOEER SEED-Have again declined, being now held
